

STUDENT TRANSFERS IN

Students who transfer into the school district must meet the immunization and age requirements set out for students who initially enroll in the school district.

The school district shall request the student's cumulative records from the previous school district. If the student cannot offer proof of grade level, the superintendent will make the grade level determination. The superintendent may require testing or other information to determine the grade level.

Students expelled or suspended from their previous school district will be enrolled only after they have been reinstated as a student in good standing with their previous school district or their enrollment has been approved by the board of education.

The superintendent shall determine the amount of credits to be transferred. Only credits and grades awarded by a state accredited public or private school will be accepted.

The board may deny admission if the student is not willing to provide the board with the necessary information.

School districts do not need parental permission to request student records from previous school districts. The school district sending the records must notify the parents that the student's records have been sent.
