

## PRIVATE INSTRUCTION

The Clinton Community School District recognizes that families with students of compulsory attendance age may select alternative forms of education outside the traditional school setting, including private instruction. The applicable legal requirements for private instruction, including, but not limited to those relating to reporting and evaluations for progress, shall be followed.

Except as otherwise exempted, in the event a child of compulsory attendance age as defined by law does not attend public school or an accredited nonpublic school, the child must receive private instruction. Private instruction means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

Private instruction can take the form of competent private instruction and independent private instruction. The Iowa Department of Education recognizes three options for delivery of this form of instruction: two options for delivery of competent private instruction and one option for independent private instruction.

Competent private instruction means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, which results in the student making adequate progress. Competent private instruction is provided by or under the supervision of a licensed practitioner or by other individuals identified in law.

Independent private instruction means instruction that meets the following criteria: (i) is not accredited, (ii) enrolls not more than four unrelated students, (iii) does not charge tuition, fees, or other remuneration for instruction, (iv) provides private or religious-based instruction as its primary purpose, (v) provides enrolled students with instruction in mathematics, reading and language arts, science, and social studies, (vi) provides, upon written request from the superintendent of the school district in which the independent private instruction is provided, or from the director of the department of education, a report identifying the primary instructor, location, name of the authority responsible for the independent private instruction, and the names of the students enrolled, (vii) is not a nonpublic school and does not provide competent private instruction as defined herein, and (viii) is exempt from all state statutes and administrative rules applicable to a school, a school board, or a school district, except as otherwise provided by law.

### **Grades and Academic Credit**

Students at all levels will receive grades and/or credit only for work performed while enrolled in the Clinton Community School District, an accredited public school or an accredited non-public school. Grades from private instruction, non-accredited schools will not be included in grade point averages, class rank and will not be listed on the student's transcript.

### **Honors and Awards:**

Home school and dual enrolled students are not full-time students and, therefore, are not eligible to receive academic honors and/or awards. Students may receive recognition for scholastic achievement only by virtue of courses taken at the appropriate school.

### **Class Rank**

Home school and dual enrolled students are not full-time students and, therefore, are not eligible to receive a class ranking. A student is eligible to receive a class ranking if he/she is considered a full-time student.

## **Graduation**

Regardless of the admission level status, students must earn the number of credits in the subjects required by Board Policy Code No. 505.6 in order to receive a Clinton Community School District high school diploma. Credits earned from an accredited public school or an accredited non-public school, and which meet the requirements specified in Board Policy 505.6, will be counted towards graduation.

### **Student Fees:**

Student fees will be assessed according to the grade level and the fee schedule adopted by the Board of Education.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.
