

SCHOOL FOOD PROGRAM

The school district will operate a school food program in each attendance center. The school food program services will include breakfast and lunches through participation in the National School Lunch Program and supplementary foods for students during the school day. Students may bring their own food from home and purchase milk or juice and other incidental items.

School food service facilities are provided to serve students and employees when school is in session and during school-related activities. They may also be used, under the supervision of the Director of Food Services, for food service to employee groups, parent-teacher meetings, civic organizations meeting for the purpose of better understanding the schools, and senior citizens in accordance with board policy.

The school food program is operated as an enterprise fund. The revenues of the school food program will be used only for paying the regular operating costs of the school food program including salaries and benefits for employees necessary to operate the food service program, food, purchased services, supplies and additional food service equipment. Supplies of the school food program shall only be used for the school food program.

The board will set, and periodically review, the prices for school meals. It shall be the responsibility of the superintendent to make a recommendation regarding the prices of school meals and milk.

It shall be the responsibility of the Director of Food Services to administer the program and to cooperate with the superintendent for the proper functioning of the school food program.
